## RECENT ACTIVITIES

### Upcoming Tender Offer

As we reported in our Adviser's Report for the six-month period ended 31 August 2018, we have repurchased a small amount of our stock at a significant discount during 2018, although it has proved challenging to find a sufficient volume of shares in the market at prevailing market prices.

We continue to anticipate a number of realizations in early 2019 and, subject to shareholder approval, intend to pursue a tender offer of ordinary shares (at a price no wider than a five percent discount to NAV) funded with a significant portion of these realizations. Realization proceeds will also be used in part to repay bank borrowings. Further details of the tender offer will be announced by the Company in due course.

### Significant Investments and Realizations

#### *US Micro-cap Investments – Verticals*

In November 2018, JZCP invested approximately \$14 million in a new Flow Controls vertical, which was used to make the first acquisition into the vertical, a premium manufacturer and distributor of sanitary and biopharmaceutical stainless steel fittings, valves and tubing primarily used in the food, beverage, dairy and biopharmaceutical industries.

We have identified the large and highly fragmented flow controls industry as an attractive industry to pursue a build-up strategy. Our acquisition efforts will be focused on niche businesses involved with manufacturing and distributing high margin flow handling products and components utilized to connect processing line equipment for end-markets such as pharmaceutical, food & beverage, power generation, chemicals and water management.

## Co-investments

In October 2018, JZCP funded approximately \$14.5 million to purchase Evriholder, a complementary acquisition to our Deflecto investment. Founded in 1994 and headquartered in Anaheim, California, Evriholder designs and distributes everyday household items, including kitchen products, cleaning products, bath and beauty items and storage/organization units. Evriholder specializes in the “impulse” product segment and primarily sells its products through mass retailers, specialty retailers, supermarkets, e-commerce and dollar stores.

## Other US Micro-cap Investments

In September 2018, JZCP invested approximately \$1.8 million to acquire Ultra Solutions, an add-on investment to our Avante platform (formerly known as Jordan Health Products). Founded in 1999, Ultra Solutions sells, services, and installs refurbished medical imaging equipment, specializing in ultrasound equipment. Since inception, Ultra Solutions has expanded to cover many different facets of ultrasound imaging by selling equipment/parts, repairing systems/probes and providing service, training and technical support.

## Real Estate Investments

In the three-month period ended 30 November 2018, JZCP invested a total of \$5.0 million in follow-on investments in our Fulton and Wynwood assemblages.

## Realizations

### TWH Water Treatment Industries, Inc. (“TWH”)

In September 2018, TWH merged with DuBois Chemicals, Inc. (“DuBois”), a specialty chemical company that provides value-added chemicals, equipment and service.

JZCP realized \$31.3 million in initial gross proceeds from the merger (subject to post-closing adjustments), plus potentially up to \$5 million of additional gross proceeds from an earn-out based on certain revenue targets of TWH. Including gross proceeds from a dividend recapitalization in November 2016, the transaction is expected to represent a gross MOIC of approximately 3.1x and a gross IRR of approximately 25%, in each case taking into account the receipt of full post-closing adjustments and earn-out proceeds. Additionally, the sale of TWH represents an uplift to JZCP’s NAV of approximately 2.7%, again taking into account the receipt of full post-closing adjustments and earn-out proceeds.

In October 2018, JZCP refinanced Esperante, its office building in West Palm Beach, Florida. This refinancing resulted in refinancing proceeds to JZCP of \$8.3 million.

### Fulton Mall Assemblage

In December 2018 (post-period), JZCP and HomeFed, a real estate investor and developer of mixed-use projects in the United States, announced that they have become joint venture partners with regards to JZCP’s Fulton Mall assemblage. HomeFed is approximately 70% owned by Jefferies, a diversified financial services company. HomeFed acquired a minority stake in JZCP’s Fulton Mall assemblage for approximately \$52.5 million, of which approximately \$40.3 million is attributable to JZCP. The sale price is at NAV.

JZCP and its real estate operating partner, RedSky Capital, plan to develop the Fulton Mall assemblage in partnership with HomeFed.
