RNS Number: 2285S Warehouse REIT PLC 05 November 2019

5 November 2019

Warehouse REIT plc

(the "Company" or "Warehouse REIT", together with its subsidiaries, the "Group")

HALF-YEAR RESULTS ANNOUNCEMENT FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2019

Warehouse REIT positioned for earnings growth

Acquisition activity and asset management enhancing tenant mix and quality of income

Warehouse REIT, the AIM-listed specialist warehouse investor, today announces its half-year results for the six months ended 30 September 2019.

Financial highlights¹

Six months to	30 September 2019	30 September 2018
Revenue	£13.6m	£10.7m
Operating profit before gains on investment properties	£9.7m	£5.0m
IFRS profit before tax	£2.8m	£11.0m
IFRS earnings per share	1.2p	6.6p
EPRA earnings per share	3.0p	1.8p
Adjusted earnings per share ²	3.0p	3.1p
Dividends per share ³	3.0p	3.0p
Total accounting return ⁴	(1.4)%	6.5%
Total costs ratio ⁵	26.5%	28.9%

As at	30 September 2019	31 March 2019
Portfolio valuation	£438.7m	£307.4m
IFRS net asset value	£252.7m	£182.3m
IFRS net asset value per share	105.2p	109.8p
EPRA net asset value per share	105.2p	109.7p
Loan to value ratio	40.2%	39.7%

- Paid or declared dividends of 3.0 pence per share, in line with our previous target of 6.0 pence per share for the full year. As a result of being fully invested by September 2019, we will be increasing the target for the year to March 2020
- Successfully raised gross proceeds of £76.5 million through an equity issue in April 2019, with strong support from existing and new shareholders
- Acquisitions totalling £133.2 million during the period, adding 1.6 million sq ft to the portfolio at a net initial yield ("NY") of 6.7%
- Portfolio valued at £438.7 million at 30 September 2019, representing a 1.0% increase on the 31 March 2019 valuation and the purchase price for assets
 acquired during the period, or a 0.6% increase on a like-for-like basis compared to the valuation at 31 March 2019
- EPRA net asset value ("NAV") per share of 105.2 pence (31 March 2019: 109.7 pence), reflecting short-term dilution from the share issue, equivalent to 2.8
 pence per share and the costs of acquisitions made in the period of £8.6 million, equivalent to 3.6 pence per share, net of increases of 1.9 pence per share
 largely arising on revaluation, reflecting the short time that recently acquired assets have been held
- Bank debt of £184.0 million at the period end, following the extension of our banking facilities to £210.0 million and resulting in a loan to value ratio ("LTV") of
 40.2% (31 March 2019: 39.7%), slightly above our target of 30-40% but below the maximum of 50%. This will be managed below 40% in the near term through
 the disposal of a small number of non-core assets

Operational highlights

As at	30 September 2019	31 March 2019
Contracted rent	£30.3m	£21.6m
Passing rent	£28.0m	£20.6m
WAULT ⁶ to expiry	5.1 years	4.6 years
WAULT to first break	3.9 years	3.1 years
EPRA net initial yield	5.7%	6.1%
Occupancy	91.5%	92.0%

- · Occupational markets remain favourable, with strong tenant demand and constrained supply contributing to rental growth across the UK
- Continued progress unlocking value from the portfolio through active asset management
 - Completed 43 lettings of vacant space, generating rent of £0.9 million per annum, 8.0% ahead of 31 March 2019 estimated rental value ("ERV"). ERV across the portfolio has grown by 1.2% on a like-for-like basis

- Renewed 57 leases, including major renewal with Alliance Healthcare, securing income of £2.1 million and a 23.4% increase over previously
 contracted rents
- Capital expenditure of £2.4 million spent or committed in the period (six months ended 30 September 2018: £1.4 million), to drive future rental and capital
 value growth
- Occupancy of 91.5% (31 March 2019: 92.0%), reflecting space taken back to undergo refurbishment. Excluding units undergoing refurbishment and units under offer to let, occupancy was 96.8%
- o Progressing value-add opportunities on 'lazy acres', focused on generating value from surplus or adjacent land
- Successfully invested the proceeds of the April 2019 equity issue, acquiring 14 assets at a NIY of 6.7%
 - o Added 1.6 million sq ft giving a total portfolio of 6.2 million sq ft across 104 assets
 - Further enhanced the quality of the tenant mix, adding strong covenants such as John Lewis Partnership and Direct Wines as well as increasing exposure to existing major tenants such as Amazon
 - o Increased the WAULT to 5.1 years (31 March 2019: 4.6 years), reflecting the benefits of both asset management and the acquisitions in the period

Post period end highlights

- Completed the disposal of four assets for consideration of £3.0 million, ahead of their 31 March 2019 book value of £2.8 million, reflecting a NIY of 5.8%
- Completed the acquisition of the multi-let Mdpoint Estate in Mddlewich. Cheshire, for £15.5 million, reflecting a NIY of 6.6%

Neil Kirton, Chairman of Warehouse RET, commented:

"We have continued to successfully execute the strategy we set out at IPO, adding value to the portfolio through active asset management and successfully investing the proceeds of the April 2019 equity issue in line with our forecast timeframe. These actions have further enhanced the tenant covenant portfolio and the duration and quality of our income stream, underpinning our ability to pay attractive dividends to shareholders."

Andrew Bird, Managing Director of the Investment Advisor, Tilstone Partners Limited, added:

"The strength and depth of occupational demand, coupled with continued constraints on supply, gives the Group resilient cash flows. We remain focused on actively managing the portfolio, so the Group captures the rental growth in the market and benefits from rising asset values. We believe the Group is well placed for further value creation in the second half of the financial year."

Footnotes

- 1. The Group uses a number of Alternative Performance Measures ("APMs") which are not defined or specified within IFRS. The Directors use these measures in order to assess the performance of the Group, in line with market practice. EPRA EPS is set out in note 10. EPRA NAV is set out in note 18. A glossary of terms is shown at the end of this report.
- 2. Adjusted earnings per share ("EPS") is based on IFRS earnings excluding unrealised fair value gains on investment properties, profit on disposal of investment properties and one-off costs, which were a property and acquisition provision in the six months to 30 September 2018, as set out in note 16. There were no profits on disposal or one-off costs in the six months to 30 September 2019.
- 3. Dividends paid and declared in relation to the period. Dividends paid during the period also totalled 3.0 pence (six months ended 30 September 2018: 3.0 pence per share)
- 4. Total accounting return based on decrease in EPRA NAV per share of 4.5 pence per share plus dividends paid per share of 3.0 pence, as a percentage of the opening EPRA NAV of 109.7 pence per share.

5. Total costs ratio represents the EPRA cost ratio excluding one-off costs

6.Weighted average unexpired lease term.

Meeting

A meeting for investors and analysts will be held at 09:00 today at the offices of FTI Consulting, 200 Aldersgate, London, EC1A 4HD.

The conference call dial-in for the meeting is: +44 (0)330 336 9105 (Participant Passcode: 8318579).

Notes

Warehouse REIT plc owns and manages a diversified portfolio of warehouse real estate assets in UK urban areas.

This is a compelling market. The structural rise in e-commerce and investment in 'last-mile' delivery contribute to high tenant demand, while limited vacant space and our active asset management lead to growing rents. Capturing this income allows us to offer our shareholders an attractive dividend and the prospect of capital and further dividend growth.

Our portfolio of well-located assets is let to occupiers ranging from pure e-commerce to traditional light industrial. As we expand, our vision is for Warehouse REIT to become the warehouse provider of choice across the UK.

The Company's shares were admitted to trading on AIM in September 2017.

Forward-looking Statements

Certain information contained in these half-year results may constitute forward looking information. This information relates to future events or occurrences or the Company's future performance. All information other than information of historical fact is forward looking information. The Company and its Group does not undertake any obligation to publicly update or revise any forward-looking information except as required by applicable securities laws.

Chairman's statement

Overview

This was another active period for the Group, during which we were able to acquire high-quality assets in economically active areas, enhancing both our tenant covenant portfolio and the WAULT. We have also continued to extract asset management gains from the existing portfolio through Tilstone's pro-active approach, which supports building strong occupier relationships and helps us achieve a deep understanding of our tenants' needs. As I discuss in more detail below, these activities have improved the quality and length of our income stream, supporting our dividends to shareholders.

At the start of April 2019, we raised gross proceeds of £76.5 million through a successful equity issue. Together with our extended debt facilities, this provided us with around £120 million of firepower. We felt that there were opportunities to advantageously deploy these funds and we have done this within the six month period anticipated at the time of the equity raise. During the period we acquired 25 units in attractive locations across the UK, increasing the Mdlands weighting with towns such as Northampton and enhancing the portfolio with tenants such as John Lewis Partnership, Direct Wines and Amazon. Acquisition prices remain below replacement cost and the purchases in the period reflected a blended NIY of 6.7%.

In my previous reports, I indicated that the Board would very carefully monitor any macroeconomic developments that may be relevant to your Company and we continue to do this. The short end of the yield curve has inverted during the last 12 months and some commentators see this as a sign of impending recession. We remain extremely vigilant about tenant risk and review this in detail at each Board meeting. Our ten largest tenants now provide 28% of our rental income and include excellent covenants such as John Lewis, Amazon, Direct Wines, Alliance Healthcare, Iron Mountain and Howdens Joinery. Another example of the strength of our tenant line up is the fully-let eight-asset portfolio we acquired in September 2019, which has 100% of its income secured against D&B-rated minimum-risk covenants. At the same time, we benefit from the diversity of our tenant mix, which includes 638 occupiers in numerous different sectors, meaning we are not reliant on any individual tenant for the security of our income.

The asset management highlight for the period was re-letting our unit in Basingstoke to Alliance Healthcare (part of Walgreens Boots Alliance) on a new ten-year lease without a break, at a 42.3% uplift to the previous rent. This demonstrates our ability to work with our tenant partners to secure deals that benefit both them and us. More broadly, we achieved rental levels above ERV for new leases, while the length of leases continues to increase, reflecting occupier demand for space and the improvements we are making through capital expenditure.

We have also continued with our efforts to extract potentially significant returns from surplus or adjacent land within the portfolio, in particular making further progress with our development plans at Queenslie in Glasgow. This 'lazy acres' aspect to some of our assets provides good opportunity for development and I amsure that we will be able to extract this value while retaining our core focus on building the income stream

With this in mind, one of our focuses is to extend the portfolio's WAULT. At the start of the period, our WAULT was 4.6 years to expiry. The steps we have taken, in terms of both asset management and acquisitions, have extended the WAULT to 5.1 years at 30 September 2019. The September portfolio acquisition had a WAULT of 5.3 years, resulting from a number of longer leases and some shorter leases offering the potential to capture rental growth in the near term. We continue to identify opportunities to asset manage for higher returns and to extend the WAULT further.

Dividends

We declared and paid an interimdividend of 1.5 pence during the period. We are also declaring a second interimdividend of 1.5 pence per share with these results, in relation to the three months to 30 September 2019, which will be paid in full as a Property Income Distribution ("PID") on 27 December 2019, to shareholders on the register of 20 Neverther 2019.

This gives a total dividend for the period of 3.0 pence. This total dividend is 101% covered by earnings. Following the successful deployment of our capital by September 2019 we will be increasing our dividend target for the year to March 2020 and with a progressive policy thereafter, in line with anticipated growth in earnings. As a REIT, we are required to distribute at least 90% of our property income.

Financial results

The EFRA NAV per share at 30 September 2019 was 105.2 pence (31 March 2019: 109.7 pence). This reflects the dilutive effect of the equity raise in April 2019, the limited time we have held the £133.2 million of assets subsequently acquired, which gave little scope for growth in their value, and the costs of £8.6 million associated with making those acquisitions.

At the period end, the Group had £184.0 million of debt (31 March 2019: £127.0 million) and a LTV ratio of 40.2% (31 March 2019: 39.7%). While this is slightly above our longer term target range of 30-40%, it remains below the 50% limit in our investment policy and with the sale of a number of smaller non-core assets we soon expect to manage our LTV to below 40%.

Governance

One of the Board's principal responsibilities is to ensure that the Group's strategy remains appropriate and is being effectively implemented. In October 2019, we undertook our second strategy day since the IPO, to retest the proposition we set out at that time. The day was chaired by Non-Executive Director Aimée Pitman and attended by all the Board members and a number of Tilstone's senior staff. The topics we reviewed included the sector dynamics, the deployment of capital, acquisitions and asset management, the Group's financial outlook, the management of investor relations and our longer-termantition for the Group. We concluded that the strategy, which Tilstone is successfully implementing, continues to be the right one for our business.

Conclusion

The Board remains positive about the outlook for the Group. Occupational demand is strong, with employment in the UK at record levels, and we are not so far seeing any negative Brexit-related impact on demand for warehouse space in our target markets. Low vacancy rates coupled with the disconnect between investment values and replacement costs mean that the sector is positioned for further rental growth and we will continue to capture this at lease renewal and through new lettings. Our activities in the first half of the year have substantially increased the portfolio ERV to £34.5 million, against a contracted rent roll of £30.3 million, showing the reversionary potential in the portfolio. We will continue to focus on actively managing the portfolio to drive returns, including disposing of a small number of identified assets where we can reinvest in attractive opportunities.

I believe that the combination of our dividend streamand its growth is the key valuation driver of your Company. That said, I take comfort from the fact that in the current very low interest rate environment, the portfolio is conservatively valued on a NY of 6.5%, particularly given the enhancements we continue to make both to the duration and quality of the income stream

Our shareholder list continues to grow, which we recognise as vital to the continued execution of our strategy.

Thank you for your continued support.

Neil Kirton

Chairman

4 November 2019

Investment Advisor's report

This was a successful period for the Group, which saw it continue to deliver its strategy of actively managing its assets and enhancing its portfolio through capital expenditure and acquisitions.

Asset acquisitions

During the period, we continued to identify attractive acquisition opportunities on the Group's behalf. These included a number of larger assets, whose purchase was made possible by the Group's increasing scale. The acquisitions in the period have further enhanced the tenant covenant profile and increased the WAULT, thereby improving the quality of the income streamthat underpins dividends to shareholders. In aggregate, the Group acquired 25 warehouse units during the period and added a further 1.6 million sq ft of space and 31 tenants to the portfolio. The total purchase price of these acquisitions, excluding the associated transaction costs, was £124.6 million.

First quarter acquisitions

Industrial unit in Wakefield

The Group acquired a 53,000 sq ft single-let industrial unit in Wakefield for £4.2 million, reflecting a NY of 6.3%. The unit is let to Stapleton's Tyre Services Limited, one of the UK's largest distributors of car and van tyres. On acquisition, the tenant agreed a new 15-year lease at £5.25 per sq ft, with CP-linked rent reviews and tenant-only break options at years five and ten. Wakefield is widely considered to be Yorkshire's premier distribution location.

Distribution units in Northampton and an Aberdeen industrial estate

In Northampton, the Group acquired the freehold of two John Lewis distribution units, totalling 336,000 sq ft. John Lewis has the highest available 5A1 covenant rating and has been on site for over 25 years. It signed new five-year leases, with a headline rent of £1,836,000 per annumacross both units. The units are within the 'Golden Triangle' on the Brackmills Industrial Estate, one of the UK's premier distribution locations, with excellent access to the M1 motorway.

In Aberdeen, the Group acquired the long-leasehold Murcar Industrial Estate. On acquisition, the 125,000 sq ft estate was 100% let to a range of occupiers, with a WAULT of 8.0 years (5.2 years to break) and total net passing rent of £776,000 per annum. The 8.5-acre site is within the Bridge of Don Industrial Estate, a major industrial and business area, which fronts the A90 dual carriageway and is four miles from Aberdeen city centre.

These acquisitions had a combined cost of £37.0 million and a blended NIY of 6.6%

Three warehouse units in Tewkesbury

The Group purchased a further three units providing an additional 54,600 sq ft next to its existing holding at Tewkesbury Business Park. The purchase price of £3.8 million reflected a NY of 6.9% and is comfortably below replacement cost at less than £70 per sq ft. The WAULT on acquisition was 7.0 years.

Second quarter acquisitions

Warehouse assets in Chorley and Doncaster

In Chorley, Lancashire, the Group acquired a 47,500 sq ft modern, purpose-built warehouse for £3.6 million. The property had recently undergone a complete refurbishment and is let to an established manufacturing business as its distribution centre, generating a net passing rent of approximately £260,000 per annum. The lease had 4.5 years remaining on acquisition.

The Group also increased its holding on the popular Sky Business Park in Doncaster, acquiring units 1 and 2 which total 20,700 sq ft of space, to add to the 36,000 sq ft already owned across six units. The tenant signed a new ten-year lease with a break at year five, off a passing rent of £5.81 per sq ft, which compares favourably with lettings the Group has recently achieved on the estate. The purchase price was £1.68 million.

The blended NIY of the two purchases was 6.8%.

1 million sq ft portfolio

In September 2019, the Group acquired a portfolio of one multi-let and seven single-let warehouses, totalling 995,100 sq ft. The purchase price was £70.0 million, with a further payment of up to £5.0 million due on or before September 2023, and reflected a NIY of 6.7%. The assets are fully let and generate annual rent of £5.38 million.

The assets range in size from approximately 50,000 sq ft to 217,000 sq ft and are all close to major conurbations and on or near arterial routes. All the income is secured against D&B-rated 'minimum risk' covenants, with occupiers including Amazon, Direct Wines, Iron Mountain and Sytner Group. The portfolio has a WAULT of 5.3 years and a low average rent of £5.40 per sq ft. A number of short leases and below-market rents offer scope to unlock value through active asset management.

Asset management

The Group continued to undertake a wide range of asset management activities during the period, contributing to rental growth and increased capital values.

<u>Disposals</u>

Part of the Group's asset management strategy is to dispose of mature, lower-yielding or non-core assets, so it can redeploy the capital to generate further income growth and higher total returns. A number of such disposal opportunities were identified during the period with four completing since the period end (see post period end activity below). The Group continues to review a number of further asset sales.

Capital expenditure

Capital expenditure is key to enhancing the quality of the Group's assets, so as to attract occupiers and increase rental levels and capital values. It also enables the Group to support its occupiers' growth plans, through value-enhancing improvements or extensions to units, in exchange for higher rents or extended leases. The Group therefore aims to invest 0.75% of its gross asset value in capital expenditure each year. The financial year ending 31 March 2020 is expected to represent a period of higher capital expenditure for the Group and during the first six months, it spent or committed £2.4 million on capital expenditure (six months ended 30 September 2018: £1.4 million).

One of the larger elements of this spend was the refurbishment of the Group's multi-let asset in Witney, Oxfordshire. Since the beginning of the period, the Group has taken back approximately 70,600 sq ft of space for refurbishment and received a surrender premiumand dilapidations payment of £0.8 million, providing effective income cover through to early 2020 and a contribution to refurbishment works. The focus is now on completing the refurbishment, returning the single-let unit to a range of smaller units and securing new occupiers at higher rents. Pleasingly, an encouraging level of enquiries has already been received. As a result of this and other refurbishment work, approximately 3.8% of the portfolio's ERV was under refurbishment at the period end, reflecting the fact that rent-enhancing refurbishments can only take place in empty units.

Other notable items of capital expenditure included refurbishment work on two units at Stadium Industrial Estate, Luton, roof works on units at Nexus, Knowsley, and refurbishment work on two units and roof works at Farthing Road Industrial Estate, Ipswich, all of which have facilitated new lettings at rents ahead of ERV.

Leasing activity

The Group made further progress with letting vacant space and renewing leases during the period. This progress was supported by the capital expenditure described above and reflects the Group's 'space intelligence', which incorporates its strong relationships with occupiers and its ongoing work to understand their space requirements.

The Group secured 43 new leases on 137,000 sq ft of space during the period. These will generate annual rent of £0.9 million, which is 8.0% ahead of the 31 March 2019 ERV. On average, new leases continue to lengthen, with seven leases of ten years or more signed in the period. Incentives also continue to reduce.

Key examples of new lettings in the first half of the year included:

- a ten-vear lease, without a break, on a unit at Vantage Point, Leeds, at a rental level 22.9% ahead of ERV:
- a ten-year lease, with a break at year five, on a unit at Kingsditch Trading Estate, Cheltenham, at a rental level 13.2% ahead of ERV;
- a nine-year lease, with a break at year six, on a unit at Shieling Court, Corby, at a rental level 11.1% ahead of EN;
- a five-year lease, with a break at year three, on a unit at Kingsditch Trading Estate, at a rental level 17.4% ahead of ERV; and
- a ten-year lease, with a break at year five, on a unit at New England Industrial Estate, Hoddesdon, at a rent of £150,000 per annum, in line with ERV.

Lease renewals

The Group continues to retain the majority of its occupiers, with 80% remaining in occupation at expiry and 62% with a break arising in the period. Of the 38% that did exercise breaks, 63% were re-let at rents 19.9% ahead of previous rents. As in previous periods, occupiers who chose not to renew typically did so because the Group was unable to offer them more space on the same site. In total, there were 57 lease renewals on approximately 369,500 sq ft of space during the period. The renewals resulted in average rental growth of 23.4% above the previous passing rent and 2.8% above the ERV.

Examples of notable lease renewals in the period included:

- a major renewal with Alliance Healthcare (Distribution) Limited, the distribution arm of Walgreens Boots Alliance Inc., at Daneshill Industrial Estate in Basingstoke.
 The ten-year lease renewal, with no breaks, in return for market standard incentives, was agreed at a 42.3% uplift to the previous rent, with a headline rent of £925,000 per annumor £8.19 per sq ft. Boots has occupied the 113,300 sq ft unit since 1989;
- a ten-year lease, without a break, on a unit at Kingsditch Trading Estate, at a rental level 19.1% ahead of the previous rent;
- a ten-year lease, without a break, on units at Queenslie Business Park, Glasgow, at a rental level 8.8% ahead of the previous rent;
- a ten-year lease, with a break at year five, on a unit at Witan Park, Witney, at a rental level 24.6% ahead of the previous rent; and
- a six-year lease, with a break at year three, on a unit at Yale Business Park, Ipswich, at a rental level 37.8% ahead of the previous rent.

Development activity

Having received outline planning permission during the year ended 31 March 2019 for up to 250,000 sq ft of employment-led space at Queenslie Business Park, Glasgow, the Group has continued to progress its plans for the site. The Group will not build new accommodation without first achieving a pre-let on some of the space. It has already received strong interest from potential occupiers, on what is a key motorway-fronting location. Securing pre-lets will enable the Group to seek detailed planning consent for the occupiers' specific requirements. Activity during the period included continuing the process for clearing planning pre-conditions and beginning to market a trade counter scheme. Occupancy in the existing estate at Queenslie remains high.

In addition, at Nexus, Knowsley, the Group achieved outline planning consent for 30,000 sq ft of industrial space on two acres of the development land, along with a petrol and electric charging station and a drive-through on the remaining 2.2 acres. This is a further example of the Group seeking to extract value from unused or underutilised 'lazy acres'.

Portfolio analysis

As a result of the acquisitions and asset management activity described above, at the period end the portfolio was valued at £438.7 million and totalled 6.2 million sq ft of space. The table below analyses the portfolio as at 30 September 2019:

Warehouse sector	Occupancy	Valuation £m	Net initial yield	Reversionary yield	WAULT to expiry Years	WAULT to break Years	Average rent £ per sq ft	Average capital value £ per sq ft
Warehouse storage and distribution	92.5%	348.4	6.2%	7.0%	5.3	4.0	5.30	71
Light manufacture and assembly	84.1%	45.4	7.2%	8.5%	4.3	2.8	4.59	53
Warehouse - trade use	100.0%	12.4	7.1%	7.3%	6.1	4.6	7.19	93
Warehouse - retail use	100.0%	10.8	8.2%	9.4%	5.0	5.0	10.44	119
Workspace and office	85.0%	21.7	7.3%	8.8%	3.9	3.3	10.00	106
Total portfolio	91.5%	438.7	6.5%	7.3%	5.1	3.9	5.47	71

At the period end, the contracted rent roll was £30.3 million, resulting in a NIY of 6.5%. The portfolio's ERV was £34.5 million, giving a reversionary yield of 7.3%. The ERV typically assumes that a unit is reflet in its current condition and does not take account of the potential to increase rents through refurbishment, repositioning or change in permitted planning use. The Group's asset management is progressively unlocking the portfolio's reversionary potential, with new lettings frequently securing rental levels ahead of ERV.

The acquisitions and letting activity in the period have further lengthened the WAULT, which stood at 5.1 years at 30 September 2019, up from 4.6 years at the start of the period and 4.2 years at 30 September 2018. This more than offset the natural reduction in the WAULT over time.

In response to the positive way the market responds to refurbishment, the Group has actively taken back units where possible and is carrying out targeted refurbishment. Whilst this has reduced the occupancy to 91.5%, slightly below the 92.0% at the start of the period, the effective vacancy is only 3.2% as 3.8% of the portfolio ERV was under refurbishment at the period end and a further 1.5% was under offer to let. Occupancy excluding units under offer and units undergoing refurbishment was 96.8%, versus 94.9% as at 31 March 2019.

Financial review

<u>Performance</u>

Rental income for the period was £12.4 million (six months ended 30 September 2018: £9.9 million), up 25.3%, reflecting growth in the portfolio and the benefits of asset management. Total revenue, which includes insurance recharges, dilapidation income and any surrender premiums, was £13.6 million (six months ended 30 September 2018: £10.7 million). As noted above, the Group received a surrender premium and dilapidations payment of £0.8 million in respect of the units taken back at Witney, which is included in total revenue for the period.

The Group's operating costs include its running costs (primarily the management, audit, company secretarial, other professional and Directors' fees), and property-related costs (including legal expenses, void costs and repairs). Total operating costs for the period were £3.9 million (six months ended 30 September 2018: £5.7 million).

Operating costs in the six months ended 30 September 2018 included one-off costs of £2.2 million associated with a terminated acquisition and the default of the tenant at Deeside, who entered into administration.

The Group continues to exercise tight control of its costs. The EPRA cost ratio, which is calculated as costs as a percentage of revenue, was 26.5% for the period (six months ended 30 September 2018: 28.9% excluding one-off costs). The ongoing charges ratio, representing the costs of running the REIT as a percentage of NAV, was 1.0% (six months ended 30 September 2018: 2.2%).

There was no profit on disposal in the six months to 30 September 2019. In the six months ended 30 September 2018, the Group recorded a profit of £3.7 million on the sale of four investment properties.

At the period end, the Group recognised a loss of £4.3 million on the revaluation of its investment properties (six months ended 30 September 2018: gain of £4.4 million) reflecting the one-off costs associated with the acquisitions in the period of £8.6 million net of a revaluation uplift of £4.3 million.

Net financing costs, which include the interest costs associated with the Group's revolving credit facility ("RCF") and term loan, totalled £2.5 million (six months ended 30 September 2018: £2.1 million).

Statutory profit before tax for the period was £2.8 million (six months ended 30 September 2018: £11.0 million).

As a REIT, the Group's profits and gains fromits property investment business are exempt from corporation tax. The corporation tax charge for the period was therefore £nil (six months ended 30 September 2018: £nil).

Earnings per share ("IPS") under IFRS was 1.2 pence (six months ended 30 September 2018: 6.6 pence). IFRA IPS was 3.0 pence (six months ended 30 September 2018: 1.8 pence, or 3.1 pence when adjusted to exclude one-off costs).

Dividends

The Company has declared the following interimdividends in respect of the six months to 30 September 2019:

- an interimdividend of 1.5 pence per share in relation to the three months to 30 June 2019, which was paid as a PID on 27 September 2019; and
- the Board has also declared an interimdividend of 1.5 pence per share in relation to the three months to 30 September 2019, which will be paid in full as a PID on 27 December 2019, to shareholders on the register at 29 November 2019. The ex-dividend date will be 28 November 2019.

The total dividend for the period was therefore 3.0 pence per share (six months ended 30 September 2018: 3.0 pence), in line with the initial target of at least 6.0 pence for the full year. The total dividend was 101% covered by ETRA ETS.

The cash cost of the total dividend for the period was £7.2 million (six months ended 30 September 2018: £5.0 million).

Valuation and net asset value

The portfolio was independently valued by CBRE as at 30 September 2019, in accordance with the RICS Valuation - Global Standards 2017 (incorporating the International Valuation Standards) and the UK National Supplement 2018 (the 'Red Book').

The portfolio valuation of £438.7 million (31 March 2019: £307.4 million) represented a 0.6% like-for-like increase on the valuation at 31 March 2019, and taking into account the capital expenditure in the period of £2.4 million. The like-for-like valuation increase was primarily driven by income growth. The EPRA NIY was 5.7% (31 March 2019: 6.1%).

The valuation resulted in an EFRA NAV of 105.2 pence per share at the period end (31 March 2019: 109.7 pence per share). The reduction reflects the dilutive effect of the share issue (see below), the limited time that the assets subsequently acquired were held, which restricted the scope for valuation growth, and most significantly the costs associated with acquisitions in the period, which totalled £8.6 million and largely comprised stamp duty land tax and agents' fees.

Equity financing

On 2 April 2019, the Company raised gross proceeds of £76.5 million through a placing, open offer and offer for subscription. In total, the Company issued 74,254,043 new ordinary shares at 103.0 pence each. The net proceeds raised, after associated costs, were £74.8 million.

Debt financing and hedging

At the start of the period, the Group had a £30.0 million termloan and a £105.0 million ROF, both with HSBC. These five-year facilities run to November 2022, have a margin of 225 basis points above LIBOR and are secured on all properties within the Group.

During the period, the Group extended its debt facilities twice to support its acquisition programme. The first extension increased the RCF by £45.0 million to £150.0 million. The second extension was a short-term increase to the term loan of £30.0 million to £60.0 million, giving total facilities at the period end of £210.0 million. The incremental facilities are at a lower cost of 195 basis points above LIBOR, reflecting the Group's increased scale, the diversity of risk and the LTV covenant.

At the period end, the termloan was fully drawn and £124.0 million had been drawn against the RCF. Total debt was therefore £184.0 million (31 March 2019: £127.0 million) and headroom within the facilities was £26.0 million. The LTV ratio at 30 September 2019 was 40.2% (31 March 2019: 39.7%).

The Group has two interest rate caps of £30.0 million each. They run until November 2022 and November 2023 and have respective rates of 1.50% and 1.75%, excluding lending margin. At the period end, the Group had therefore hedged the interest costs on 29% of its debt. There were no changes to the Group's interest rate hedging arrangements during the period.

Post period end activity

- the disposal of two office premises, a retail warehouse and an industrial warehouse, in four separate transactions for a combined consideration of £3.0 million.
 This compares with their aggregated 31 March 2019 book value of £2.8 million and reflects a NIY of 5.8%; and
- the acquisition of the Mdpoint Estate, a multi-let estate of 20 high-quality individual warehouse units. The purchase price was £15.5 million, reflecting a NY of
 6.6%. The estate totals 182,500 sq ft, with units ranging from 2,300 sq ft to 31,600 sq ft. It is strategically located off the M6 motorway in Mddlewich, Cheshire,
 and offers a number of opportunities to grow rents and the WAULT through pro-active lease re-gears and renewals.

Investment Manager

The Company is an alternative investment fund for the purposes of the Alternative Investment Fund Managers Directive and, as such, is required to have an investment manager who is duly authorised to undertake that role. G10 is the Company's AIFM, with Tilstone providing advisory services to both G10 and the Company.

Notes to the condensed consolidated financial statements (unaudited)

For the six months ended 30 September 2019

1. General information

Warehouse REIT plc (the "Company") is a closed-ended Real Estate Investment Trust ("REIT") incorporated in England and Wales on 24 July 2017. The Company began trading on 20 September 2017. The registered office of the Company is Beaufort House, 51 New North Road, Exeter EX4 4EP. The Company is admitted to trading on AIM, a market operated by the London Stock Exchange.

2. Basis of preparation

These interim condensed consolidated unaudited financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and International Financial Reporting Standards ("IFRS") and interpretations issued by the International Accounting Standards Board ("IASB") as adopted by the European Union.

These interim condensed consolidated unaudited financial statements should be read in conjunction with the Company's last financial statements for the year ended 31 March 2019. These interim condensed consolidated unaudited financial statements do not include all of the information required for a complete set of annual financial statements proposed in accordance with IFRS as adopted by the EU, however, they have been prepared using the accounting policies adopted in the audited financial statements for the year ended 31 March 2019 and selected explanatory notes have been included to explain events and transactions that are significant in understanding changes in the Company's financial position and performance since the last financial statements.

The financial statements have been prepared under the historical cost convention, except for investment property and interest rate derivatives, which have been measured at fair value. The interim financial statements are presented in Pound Sterling and all values are rounded to the nearest thousand pounds (£'000), except when otherwise indicated.

The financial information contained within these interim results does not constitute full statutory accounts as defined in section 434 of the Companies Act 2006. The financial statements for the six months ended 30 September 2019 have not been either audited or reviewed by the Company's Auditor. The information for the year ended 31 March 2019 has been extracted from the latest published annual report and financial statements, which has been filed with the Registrar of Companies. The Auditor reported on those accounts; its report was unqualified, and did not contain a statement under section 498(2) or (3) of the Companies Act 2006.

The Directors have made an assessment of the Group's ability to continue as a going concern and are satisfied that the Group has the resources to continue in business for the foreseeable future, for a period of not less than 12 months from the date of this report. Furthermore, the Directors are not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. It is noted that whilst there are net current liabilities of £3.8 million, there is £26.0 million headroom readily available under the RCF. Therefore, the financial statements have been prepared on the going concern basis.

2.1 Changes to accounting standards and interpretations

There were a number of new standards and amendments to existing standards which are required for the Group's accounting period beginning on 1 April 2019, which have been considered and applied as follows:

IFRS 16 Leases. In January 2016, the IASB published the final version of IFRS 16 Leases. IFRS 16 specifies how an IFRS reporter will recognise, measure, present and disclose leasing arrangements.

Under IFRS 16, the Group recognises the right-to-use asset in the Consolidated Statement of Financial Position at fair value and this is amortised over the life of the lease. Amortisation is recognised in the Consolidated Statement of Comprehensive Income. In addition, a financial liability is recognised in the Consolidated Statement of Financial Position which is valued at the present value of future lease payments using the discount rate implicit in the lease, if readily determinable, or if not the Group incremental borrowing rate.

Under IFRS 16, comparative information is not required to be restated. This new standard has been applied with no significant impact on the financial statements.

The following have been considered, but have had no impact on the Group for the reporting period:

- Amendments to IFRS 9;
- IFRIC 23, Uncertainty over Income Tax Treatments;
- Amendments to IAS 28 Long Term Interests in Associates and Joint Ventures; and
- Amendments to IAS 19 Plan Amendment, Ourtailment or Settlement.

There are a number of new standards and amendments to existing standards which have been published and are mandatory for the Group's accounting periods beginning on or after 1 April 2020 or later. The Group is not adopting these standards early. The following are the most relevant to the Group:

- Definition of Material amendments to IAS 1 and IAS 8; and
- Annual improvements to IFRS 2015-2017 Cycle: amendments to IFRS 3 Business Combinations, IFRS 11 Joint Arrangements, IAS 12 Income Taxes and IAS 23 Borrowing Costs.

It is not considered that these new accounting standards and amendments will have a significant impact on the Group's financial statements.

2.2 Significant accounting judgements and estimates

The preparation of these financial statements in accordance with IFRS requires the Directors of the Company to make judgements, estimates and assumptions that affect the reported amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of an asset or liability in the future.

Estimates

In the process of applying the Group's accounting policies, management has made the following estimate, which has the most significant effect on the amounts recognised in the consolidated financial statements:

The valuations of the Group's investment property are at fair value as determined by the external valuer on the basis of market value in accordance with the internationally accepted RICS Valuation - Global Standards 2017 (incorporating the International Valuation Standards) and the UK National Supplement 2018 (the 'Red Book') and in accordance with IFRS 13. See notes 11 and 19 for further details.

2.3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are consistent with those applied within the Company's Annual Report and Financial Statements for the year ended 31 March 2019.

Functional and presentation currency

The objective of the Group is to generate returns in Pound Sterling and the Group's performance is evaluated in Pound Sterling. Therefore, the Directors consider Pound Sterling as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and have therefore adopted it as the functional and presentation currency.

Segmental reporting

The Directors are of the opinion that the Group is engaged in a single segment of business, being the investment in and provision of UK urban warehouses.

Unamortised loan arrangement fees at the start of period	(1,490)	(1,398)
Loan arrangement fees capitalised in the period	(126)	(583)
Amortisation for the period	261	491
Unamortised loan arrangement fees at the end of the period	(1,355)	(1,490)
Loan balance less unamortised loan arrangement fees	182,645	125,510

As at 30 September 2019, £26.0 million of the RCF remained available to be drawn. The term loan was fully drawn. Credit facilities are secured on all properties within the portfolio and expire on 30 November 2022.

The debt facilities include loan to value and interest cover covenants that are measured at Group level. The Group has maintained significant headroom against all measures throughout the financial period and is in full compliance with all loan covenants at 30 September 2019.

15. Finance lease obligations

The following table analyses the minimum lease payments under non-cancellable finance leases using an average discount rate of 6.9%:

	30 September 2019	31 March 2019
	£'000	£'000
Current liabilities	402	204
Within one year	493	284
Non-current liabilities	1,884	1,034
After one year but not more than five years	1,004	1,054
Later than five years	5,899	3,136
Total	8,276	4,454
16. Current liabilities - other payables and accrued expenses, deferred income and pr	rovisions 30 September 2019 £'000	31 March 2019 £'000
Property operating expenses payable	1,070	514
Finance and administration expenses payable	1,407	1,467
Loan interest payable	791	784
Capital expenses payable	9,759	80
Other expenses payable	421	1,151
Other payables and accrued expenses	13,448 595	3,996 1,434
Property and acquisition provision	353	1,404
Deferred income	5,104	3,585
Total	19,147	9,015
17. Share capital Share capital is the nominal amount of the Company's ordinary share	es in issue. 30 September	31 March
	2019	2019
Ordinary shares of £0.01 each	£'000	£'000
Issued and fully paid:		
166,000,000 At the start of the period	1,660	1,660

74,254,043

743

The share capital comprises one class of ordinary shares. At general meetings of the Company, ordinary shareholders are entitled to one vote on a show of hands and on a poll, to one vote for every share held. There are no restrictions on the size of a shareholding or the transfer of shares, except for the UK REIT restrictions.

18. Net asset value per share

Basic NAV per share is calculated by dividing net assets attributable to ordinary equity holders of the Company in the statement of financial position by the number of ordinary shares outstanding at the end of the period. As there are no dilutive instruments in issue, basic and diluted NAV per share are identical.

	30 September 2019 £'000	31 March 2019 £'000
IFRS net assets attributable to ordinary shareholders	252,727	182,327
IFRS net assets for calculation of NAV	252,727	182,327
Number of shares in issue (thousands)	240,254	166,000
IFRS basic and diluted NAV per share (pence)	105.2	109.8

The NAV is calculated as:

	30 September 2019 £'000	31 March 2019 £'000
IFRS net assets attributable to ordinary shareholders	252,727	182,327
IFRS net assets for calculation of NAV	252,727	182,327
Adjustment to net assets:		
Fair value of interest rate derivatives (see note 13)	(76)	(249)
EPRA net assets	252,651	182,078
EPRA NAV per share (pence)	105.2	109.7

19. Fair value

IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used to estimate the fair values.

The fair value of cash and short-term deposits, trade receivables, trade payables and other current liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

Interest-bearing loans and borrowings are disclosed at amortised cost. The carrying value of the loans and borrowings approximate their fair value due to the contractual terms and conditions of the loan. The loans are at a variable interest rates of 1.95% - 2.25% above LIBOR.

Six-monthly valuations of the investment properties are performed by CBRE, an accredited external valuer with recognised and relevant professional qualifications and recent experience of the location and category of the investment property being valued. The valuations are the ultimate responsibility of the Directors, however, who appraise these sixmonthly.

The valuation of the Group's investment property at fair value is determined by the external valuer on the basis of market value in accordance with the internationally accepted RICS Valuation - Professional Standards January 2017 (incorporating the International Valuation Standards).

The determination of the fair value of investment property requires the use of estimates such as future cash flows from assets (such as lettings, tenants' profiles, future revenue streams), the capital values of fixtures and fittings, plant and machinery, any environmental matters and the overall repair and condition of the property and discount rates applicable to those assets.

The following tables show an analysis of the fair values of investment properties recognised in the statement of financial position by level of the fair value hierarchy¹:

		30 September 2019		
	Level 1	Level 2	Level 3	Total
Assets and liabilities measured at fair value	£'000	£'000	£'000	£'000
Investment properties	-	-	438,723	438,723
Interest rate derivatives	-	76	-	76
Total	-	76	438,723	438,799

	31 March 2019			
Assets and liabilities measured at fair value	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Investment properties		-	307,385	307,385
Interest rate derivatives	<u>-</u>	249		249
Total	-	249	307,385	307,634

^{1.} Explanation of the fair value hierarchy:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 use of a model with inputs (other than quoted prices included in Level 1) that are directly or indirectly observable market data; and
- Level 3 use of a model with inputs that are not based on observable market data.

Sensitivity analysis to significant changes in unobservable inputs within the valuation of investment properties

The following table analyses:

- the fair value measurements at the end of the reporting period;
- a description of the valuation techniques applied;
- the inputs used in the fair value measurement, including the ranges of rent charged to different units within the same building; and
- for Level 3 fair value measurements, quantitative information about significant unobservable inputs used in the fair value measurement.

30 September 2019	Fair value £'000 £438,723 li	Valuation technique ncome capitalisation	Key unobservable inputs ERV Equivalent yield	Range 23-1,880 (£'000 per annum)
	£307,385	Income capitalisation	₽₹V	5.2%-13.1%
31 March 2019			Equivalent yield	25-1,490 (£'000 per annum) 5.2%-13.1%

Significant increases/decreases in the ERV (per sq ft per annum) and rental growth per annum in isolation would result in a significantly higher/lower fair value measurement. Significant increases/decreases in the long-term vacancy rate and discount rate (and exit yield) in isolation would result in a significantly higher/lower fair value measurement.

Generally, a change in the assumption made for the ERV (per sq ft per annum) is accompanied by:

- a similar change in the rent growth per annum and discount rate (and exit yield); and
- an opposite change in the long-term vacancy rate.

Gains and losses recorded in profit or loss for recurring fair value measurements categorised within Level 3 of the fair value hierarchy amount to $\pounds(4,283,000)$ (six months to 30 September 2018: £4,364,000) and are presented in the condensed consolidated statement of comprehensive income in line item 'fair value gains/(losses) on investment properties'.

All gains and losses recorded in profit or loss for recurring fair value measurements categorised within Level 3 of the fair value hierarchy are attributable to changes in unrealised gains or losses relating to investment property held at the end of the reporting period.

The carrying amount of the Group's assets and liabilities is considered to be the same as their fair value.

20. Related party transactions

Directors

The Directors (all Non-Executive) of the Company and its subsidiaries are considered to be the key management personnel of the Group. Directors' remuneration for the period totalled £80,585 (six months to 30 September 2018: £42,031) and at 30 September 2019, a balance of £nil (31 March 2019: £nil) was outstanding.

Investment Advisor

The Company is party to an Investment Management Agreement with the Investment Manager, pursuant to which the Investment Manager has appointed the Investment Advisor to provide investment advisory services relating to the respective assets on a day-to-day basis in accordance with their respective investment objectives and policies, subject to the overall supervision and direction by the Investment Manager and the Board of Directors.

For its services to the Group, the Investment Advisor receives an annual fee at a rate of 1.1% of the NAV of the Company's portfolio.

During the period, the Group incurred £1,407,000 (30 September 2018: £919,000) in respect of investment advisor fees. £847,000 (31 March 2019: £465,000) was outstanding as at the period end date.

Subsidiaries

At 30 September 2019, the Company owns a 100% controlling stake in Tilstone Holdings Limited, Tilstone Warehouse Holdco Limited, Tilstone Industrial Warehouse Limited, Tilstone Retail Warehouse Limited, Tilstone Industrial Limited, Tilstone Retail Limited, Tilstone Glasgow Limited, Quantum North Limited, CHIP (One) Limited, CHIP (Two) Limited, CHIP (Three) Limited, CHIP (Four) Limited, CHIP (Five) Limited, CHIP (Ipswich) One Limited and CHIP (Ipswich) Two Limited.

21. Ultimate controlling party

It is the view of the Directors that there is no ultimate controlling party.

22. Post balance sheet events

A second interimdividend of 1.5 pence per share in respect of the year ending 31 March 2020 will be paid in full as a PID on 27 December 2019, to shareholders on the register at 29 November 2019. The ex-dividend date will be 28 November 2019.

Glossary

Adjusted earnings per share ("Adjusted EPS")

EPRA EPS adjusted to exclude non-recurring costs, divided by the weighted average number of shares in issue during the year

Admission

The admission of Warehouse REIT plc onto the London Stock Exchange on 20 September 2017

AGM

Annual General Meeting

AIC

The Association of Investment Companies

AIFM

Alternative Investment Fund Manager

AIFMD

Alternative Investment Fund Managers Directive

AIM

A market operated by the London Stock Exchange

Contracted rent

Gross annual rental income currently receivable on a property plus rent contracted from expiry of rent-free periods and uplifts agreed at the balance sheet date less any ground rents payable under head leases

EPRA

The European Public Real Estate Association, the industry body for European REITs

EPRA cost ratio

The sum of property and administration expenses as a percentage of gross rental income calculated both including and excluding vacant property costs

EPRA earnings

IFRS profit after tax excluding movements relating to changes in fair value of investment properties, gains/losses on property disposals, changes in fair value of financial instruments and the related tax effects

EPRA earnings per share ("EPRA EPS")

A measure of EPS on EPRA earnings designed to present underlying earnings from core operating activities based on the weighted average number of shares in issue during the year

EPRA guidelines

The EPRA Best Practices Recommendations Guidelines November 2016

EPRA NAV

The value of net assets, adjusted to include properties and other investment interests at fair value and to exclude items not expected to be realised in a long-term property business, such as the fair value of any financial derivatives and deferred taxes on property valuation surpluses

The NAV per share figure based on EPRA NAV divided by the number of shares outstanding at the balance sheet date

EPRA net initial yield ("EPRA NY")

The annualised passing rent generated by the portfolio, less estimated nonlirecoverable property operating expenses, expressed as a percentage of the portfolio valuation (adding notional purchaser's costs), excluding development properties

EPRA vacancy rate

Total open market rental value of vacant units divided by total open market rental value of the portfolio

EPS

Earnings per share

Equivalent yield

The weighted average rental income return expressed as a percentage of the investment property valuation, plus purchaser's costs

Estimated rental value ("ERV")

The estimated annual open market rental value of lettable space as assessed by the external valuer

FCA

Financial Conduct Authority

GAV

Gross asset value

Group

Warehouse REIT plc and its subsidiaries

IASB

International Accounting Standards Board

IFRS

International Financial Reporting Standards as adopted by the European Union

IFRS earnings per share ("EPS")

IFRS earnings after tax for the year divided by the weighted average number of shares in issue during in the year

IFRS NAV per share

IFRS net asset value divided by the number of shares outstanding at the balance sheet date

IPO

Initial public offering

LIBOR

The basic rate of interest used in lending between banks on the London interbank market and also used as a reference

for setting the interest rate on other loans

Like-for-like rental income growth

The increase in contracted rent of properties owned throughout the period under review, expressed as a percentage of the contracted rent at the start of the period, excluding properties undergoing refurbishment

Like-for-like valuation increase

The increase in the valuation of properties owned throughout the period under review, net of capital expenditure, expressed as a percentage of the valuation at the start of the period

Loan to value ratio ("LTV")

Gross debt less cash, short-term deposits and liquid investments, divided by the aggregate value of properties and investments

NAV

Net asset value

Net initial yield ("NIY")

Contracted rent on investment properties at the balance sheet date, expressed as a percentage of the investment property valuation, plus purchaser's costs

Net rental income

Gross annual rental income receivable after deduction of ground rents and other net property outgoings including void costs and net service charge expenses

Net reversionary yield ("NRY")

The anticipated yield to which the net initial yield will rise (or fall) once the rent reaches the estimated rental value

Occupancy

Total open market rental value of the units leased divided by total open market rental value of the portfolio, equivalent to one minus the EPRA vacancy rate

Passing rent

Gross annual rental income currently receivable on a property as at the balance sheet date less any ground rents payable under head leases

Property income distribution ("PID")

Profits distributed to shareholders which are subject to tax in the hands of the shareholders as property income. PIDs are usually paid net of withholding tax (except for certain types of tax-exempt shareholders). REITs also pay out normal dividends called non-PIDs

QCA

Quoted Companies Alliance

Real Estate Investment Trust ("RET")

A listed property company which qualifies for, and has elected into, a tax regime which is exempt from corporation tax on profits from property rental income and UK capital gains on the sale of investment properties

RCF

Revolving credit facility

Total accounting return
The movement in EPRA NAV over a period plus dividends paid in the period, expressed as a percentage of the EPRA NAV at the start of the period
Total costs ratio
EPRA cost ratio excluding non-recurring costs calculated both including and excluding vacant property costs

Weighted average unexpired lease term ("WAULT")

Retail price index

Average unexpired lease term to first break or expiry across the investment portfolio weighted by contracted rent
